

IOLTA Eligibility Application - Electronic Forms Instructions

Please provide to all staff that will work on application.

Please locate the materials at www.calbar.ca.gov/ioltaapplicationmaterials

The Eligibility Guidelines for Legal Services Projects and Support Centers are posted at the web address above. Click on "Application Materials" in the left-hand navigation bar for the applicable Instructions and Forms.

Read the following instructions carefully before you begin to fill out the application forms.

1. **SAVE A COPY OF THE FORMS:** You will want a "clean" copy in case you need to start over or need to make extra copies for multi-county programs. From the "File" menu, choose "Save As" and save a copy of these forms to your computer. Data entered directly on the web pages containing the documents will not be saved to the Web site; they must be saved to your computer.
2. **REFER TO THE INSTRUCTIONS** for definitions and explanations of specific questions or line items. If you have further questions, contact the Legal Services Trust Fund office.

3. TO USE THE FORMS:

a. WORD forms:

- The Word forms consist of text and tables. To view the tables with or without gridlines, from the "Table" menu, choose "Show Gridlines" or "Hide Gridlines," respectively. If you would like to see the spaces, tab marks, hard returns, and "Section Break" indicators, click on the ¶ symbol, on the Standard Word toolbar.
- Sections that require "fill-in-the-blank" answers have gray "boxes" and are "protected" – you won't be able to put your cursor anywhere but the boxes or the "checkboxes" for "checkmark" answers. Use the tab or arrow keys or your mouse to move between boxes. Areas that require narrative answers are "unprotected" and you can type as much information as you may consider necessary. Use the "down arrow" key to move from the bottom of a narrative answer to the next answer space.
- Make an effort to eliminate extra space if the number of pages can be reduced.
- **Save often!**

b. EXCEL forms:

- **Finding the Forms:** Each form is a separate worksheet within the Excel spreadsheet. Move from form to form by clicking on the corresponding tab at the bottom of the screen. (The tabs resemble file folder tabs.) Please do not create separate documents for each form.
- **Enter Data:** You can input information into the non-shaded cells only. Use the mouse or arrow keys to place the cursor in the cell in which you will enter data. Type your data and press the "Enter" key. (All the BLUE cells are "protected" and you cannot input any information into them. Many of the BLUE cells have built-in formulas and will automatically calculate the math for you.)
- **Editing:** To make corrections, place your cursor in the cell containing the data to be corrected and double-click to access "editing" mode. Make the corrections, and then press the "Enter" key. (Another method is to select the cell and press the "F2" key.)
To change the way your data appears, whether it is font, color, size, etc., go to the "Format" menu, select "Cells" and a dialogue box will appear with several "tabs" with formatting options such as "font", "alignment", etc.

- **Print a Hard Copy:** If you use the print icon, only the form that you are currently viewing will print. To print all the forms (worksheets) at once, select "Print" from the "File" menu. Then, in the "Print What" section of the Print dialog box, choose "Entire Workbook". (Note, some printers may not print all forms correctly when you choose this option, you may have to print each form individually.)

If a form prints with the far right column of the form appearing on a second page, from the "View" menu, select "Page Break View". Blue lines and page numbers will appear on worksheet (these marks do not print), drag the blue lines so that the print area fits onto one page. Try printing the form again, one worksheet at a time.

- **Save often!**
